DAVID CEJA ZAPATA

Full Stack Developer | React, Next.js, TypeScript, .NET, Python, PostgreSQL & SQL

(+52) 72 2240 2015 • davidcejazapata@gmail.com • linkedin.com/in/david-ceja-zapata

PROFESSIONAL SUMMARY

Licensed Computer Systems Engineer with extensive experience in Full Stack development of enterprise systems, scalable web platforms, and RESTful APIs. Specialized in the JavaScript/TypeScript ecosystem (React, Next.js, NestJS) alongside backend solutions using .NET and Python. Proficient in integrating cloud services (AWS Lambda, Firebase, Supabase), optimizing relational and NoSQL databases, and connecting industrial hardware/devices within Agile (Scrum) methodologies.

TECHNICAL SKILLS

Frontend:	React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS / UI Libraries
Backend:	.NET (C#), Python, NestJS, LoopBack, Node.js, RESTful APIs, Serverless (AWS Lambda)
Databases:	PostgreSQL, SQL Server, MySQL, Firebase / Firestore (NoSQL), Supabase
DevOps & Tools:	Git, GitHub, Netlify, TCP Sockets, Communication Protocols (MODBUS), CI/CD
Methodologies:	Scrum, Requirements Analysis, Evolutionary Maintenance & Incident Resolution

PROFESSIONAL EXPERIENCE

Full Stack Developer | YNE Automatización
Nov 2024 – Present

- **Internal HR & Project Management Platform:** Designed and developed the Full Stack Web architecture using **Next.js, TypeScript, and SQL Server**, streamlining staff management and team time tracking.
- **Hardware & Industrial IoT Integration:** Built C# backend services (TCP Sockets) and Python APIs to interface machinery and physical hardware directly with ERP and real-time management systems.
- **Traceability Systems & ERP:** Led the ongoing development and maintenance of industrial software and a central ERP using **.NET (WPF/WinForms), PHP, PostgreSQL, and SQL Server**, enhancing production incident resolution.

Backend Developer | Pakke México
May 2024 – Nov 2024

- **Logistics Services & Serverless APIs:** Architected and deployed **AWS Lambda** functions and REST endpoints with **NestJS and LoopBack** for database operations and logistics management.
- **Third-Party Service Integration:** Integrated HubSpot CRM API for seamless customer data synchronization and built a real-time shipment tracking module combining **Angular** and the **Google Maps API**.

Full Stack Developer | Algorithmics Metepec
Apr 2022 – Dec 2023

- **Academic Management Platform:** Conceived and built an end-to-end web application for class scheduling and administration using **React** and **Firebase**.
- **Security & Automation:** Implemented user authentication, Firestore NoSQL architecture, advanced access rules, and automated WhatsApp notification delivery via the **Twilio API**.
- **Continuous Deployment:** Configured CI/CD integration and deployment workflows using **Netlify**, ensuring high availability for the platform.

EDUCATION & LANGUAGES

B.S. in Computer Systems Engineering (Graduated/Licensed)
Universidad Virtual del Estado de Guanajuato (UVEG)

Languages: Spanish (Native) | English (B2 - Professional / Technical)
